

Bounce

Chris Webby

All you motherfuckers
Turn it up let it (bounce)
In the trunk let it (bounce)
Throw em up let it (bounce)
Yeah bitch This is what we do when
We verbally turn em out
With the speakers to the
Maximum baby just let it
Bounce now In a crowd let it (bounce)
Turn it loud let it (bounce)
Blow em out let it (bounce)
Yeah bitch
This is what we do when I
Show em what I'm about
With the speakers to the
Maximum baby just let it
Bounce It's that evil rap nemesis
Putting together
Sentences
Faster than that hedgehog
Running on Sega Genesis Higher than the hoops of pegesis
And let the pencil hit the paper
Harder than a bus
Jerome Bettis it
Let it be set it bit with the
Excellent rhetoric
My vernaculous sbectaculous
Steb to me and I'll settle it
If mastery a language was
The goal then I'm ahead of it
You can't connect the checks
That I'm cutting down in
Conneticut My flow bezark rib cage
Gotta soulja's heart
Verbally a double barrel!
Shotty leave you blown apart
I'm such an animal they kick
Me off of Noah's Ark
Cus they keep on coming up
Shorter than Napoleon
Bonaparte Me? I'm a tall dude never let you fall through
Hard as granite damnit

These bitches softer than dog food
 Shoot em up R2 drop so many bars you
 Haters quit your job
 Cus there's nothing to argue; now let it
 Turn it up let it (bounce)
 In the trunk let it (bounce)
 Throw em up let it (bounce)
 Yeah bitch This is what we do when
 We verbally turn em out
 With the speakers to the
 Maximum baby just let it
 Bounce now
 In a crowd let it (bounce)
 Turn it loud let it (bounce)
 Blow em out let it (bounce)
 Yeah bitch This is what we do when I
 Show em what I'm about
 With the speakers to the
 Maximum baby just let it
 Bounce White boy rap sargeant buzz bigger than Cartmen
 Mentally a menace my brain's the size of a martian's
 Used to be broke as fuck at the mall
 looking for bargains
 Now I got a gold card (cha-ching!) charge em
 Started off small now I do it for the masses
 Spit it greater incinerate em burn em to ashes
 Now these new college kids think that they can match it
 Bitch I drop classics all you droppin is classes
 Whos needs Hostra? Hip hops my donna school
 Hotter than my mamas macaroni with some gaba gruel
 Yeah I'm cocky as fuck, just being honest fool
 Being modest isn't in a single molecule
 In my whole body whos touching me nobody
 Now I'm up on iTunes taking your money
 Give a shit my nose runny cus I spit it so sick
 Now bounce turn it up in the whip cus you know we gonna
 Turn it up let it (bounce)
 In the trunk let it (bounce)
 Throw em up let it (bounce)
 Yeah bitch This is what we do when we verbally turn em out
 With the speakers to the maximum baby just let it
 Bounce now
 In a crowd let it (bounce)
 Turn it loud let it (bounce)
 Blow em out let it (bounce)
 Yeah bitch This is what we do when I
 Show em what I'm about
 With the speakers to the
 Maximum baby just let it
 Bounce I'm that dude with a 40 while
 Everybody sipping rozay
 No filter on my mouth not a thing I
 Won't say
 Check the clocks like Coldplay know
 What time it is
 And my future still looking good like

Marisa Tomei Beating me? No way
Bitch you better ease up
Who needs a label the only thing I'm signing is a free nut I'm a beast why would I compete with
these chumps
I'm an 8 ball they only equal the key bump
Keep my bars high rap in the car lots
Private school training at the school of hard knots They pop the hard rock I'm
Making your jaw drop
So high, I'm up in the sky
With star fox
Hip hop veteran rockin with
David Letterman
Bad to the bone you can
Check my damn skeleton Webby ready as ever you
Better let me in
Come on bounce let me tell
Em again so just Turn it up let it (bounce)
In the trunk let it (bounce)
Throw em up let it (bounce)
Yeah bitch This is what we do when
We verbally turn em out
With the speakers to the
Maximum baby just let it
Bounce now
In a crowd let it (bounce)
Turn it loud let it (bounce)
Blow em out let it (bounce)
Yeah bitch This is what we do when I
Show em what I'm about
With the speakers to the
Maximum baby just let it
Bounce
