

# Cruisin'

## Vixen

It was earlier tonight, you didn't wanna be alone  
Then you called every club you knew, to find out what's going on  
So you put on your best jeans, you picked up your phone  
As you slipped in your car, the feeling came on strong  
You had to go cruisin' (cruisin'), you had to go cruisin' into wild times  
Cruisin' (cruisin'), gonna ride out to the red light You walked in looking for someone, for  
something to share  
You drove off in your fancy little car, you started headin' for the joy  
And you got that feeling again that tonight could be so much more  
When you walked in, I was already there  
Cruisin' (cruisin'), cruisin' into wild times  
I was cruisin' (cruisin'), gonna ride out to the red light  
Can't you go any faster? - That's better  
(Solo)  
I wanna rock, I wanna roll, I wanna eat into your soul  
I think it's time, yeah it's time we broke the ice  
Just push into the litter, whenever you lose control  
You know that this sort of thing, it did already happen twice Let's go cruisin' (cruisin'), gonna  
ride it out to the red light  
Let's go cruisin' (cruisin'), I wanna go cruisin' into wild times  
-----
