

All This Glory (feat. David Crowder*Band)

Passion

In the middle of the mess, there is majesty
In the middle of my chest, is the King of Kings
While the world was waiting on
A change to come along
Light broke in
Coming like a song All this glory
All this glory
All this glory
In the middle of the night, all this light
In the middle of the night, all this light here In the middle of the night, You are majesty
To the middle of our plight, came the King of Kings
While we were waiting on, Your love to come along
Light broke in
Coming like a Son
All this glory
All this glory
All this glory
All this glory
In the middle of the night, all this light
In the middle of the night, all this light
In the middle of the night, all this light
In the middle of the night, after all is quiet Jesus, God with us
Jesus Christ has come, and I'm undone
Jesus, God with us
Jesus Christ has come, and I'm undone All this glory
All this glory
All this glory
All this glory
Here
Jesus, God with us
Jesus Christ has come, and I'm undone
Jesus, God with us
Jesus Christ has come, and love has won
