

# Write On Me

## Fifth Harmony

Pick up the pen  
Put it on the paper  
Write on my skin  
Bring me to life  
Can't start again  
There ain't no eraser  
All of my flaws  
You got them so right Everything is blank until you draw me  
Touching on my body like you know me  
Write on me  
Color outside the lines  
Love the way you tat me up  
Baby take your time  
Write on me  
Give me some wings, I'll fly  
Love the way you tat me up  
I'll never change my mind  
Write on me, write on me  
Write on me, write on me  
(Write on me)  
Write on me (write on me)  
Write on me  
Love the way you tap me up  
Write on me  
You are my friend  
Straight and no chaser  
Burns going down  
But it keeps me alive  
Tell me the truth  
I like the danger  
Cause in the end  
You will be mine Everything is gray until you draw me  
Touching on my body like you know me Write on me  
Color outside the lines  
Love the way you tap me up  
Baby take your time  
Write on me  
Give me some wings, I'll fly  
Love the way you tat me up  
I'll never change my mind  
Write on me, write on me  
Write on me, write on me I could see a city sleep

I could see an ocean wave  
Everything is changing and it's written on my face  
I could see a city sleep  
I could see an ocean wave  
Everything is changing and it's written on my face Write on me  
Color outside the lines  
Love the way you tat me up  
Baby take your time  
Write on me  
Give me some wings, I'll fly  
Love the way you tat me up  
I'll never change my mind  
Write on me, write on me  
Write on me, write on me  
(Write on me)  
Write on me  
(Won't you write on me, yeah)  
Write on me  
Love the way you tat me up  
Write on me (Write on me)  
Write on me  
Write on me
