## **Castles**

## Freya Ridings

You left my love, you hit the target You got that rush and then you walk out the door You kept me small, is what you wanted I never noticedYou held my hand into the darkness I didn't care it made me just want you more My god your love it seems so heartless I never noticedAnd I hate that you're gone And I hate that I don't wanna let go And I hate that you think that I'm weak Cause I don't wanna let you know That I'm gonna build castles From the rubble of your love From the rubble of your love I'm gonna be more than You ever thought I was You ever thought I was Each time you left, there was a hunger I felt so scared, couldn't take anymore Losing your love, it made me strong I never noticedAnd I hate that you're gone And I hate that I don't wanna let go And I hate that you think that I'm weak Cause I don't wanna let you know That I'm gonna build castles From the rubble of your love From the rubble of your love I'm gonna be more than You ever thought I was You ever thought I was That I'm gonna build castles From the rubble of your love From the rubble of your love I'm gonna be more than You ever thought I was You ever thought I wasCastles From the rubble of your love From the rubble of your love I'm gonna be so much more than You ever thought I was You ever thought I wasCastles From the rubble of your love From the rubble of your love I'm gonna be more than You ever thought I was

You ever thought I wasI'm gonna build castles
From the rubble of your love
From the rubble of your love
I'm gonna be stronger than
You ever thought I was
You ever thought I was
