

March of the Damned

Judas Priest

We're walking the streets
We know where we'll meet Can't stop us
They don't know
Why they try Can't hurt us
We'll never die
We are on the march of the damned
...of the damned
March of the damned We know what's at stake
Won't take your mistakes Can't break us
We'll never fall
That's all It's over, just watch us grow
We are on the march of the damned
...of the damned March of the damned We're walking the streets
We know where we'll meet Can't stop us
They don't know why
They try
Can't hurt us
We'll never die
We are on the march of the damned
...of the damned March of the damned
