

# Bus in These Streets

Thundercat, OG Ron C & DJ Candlestick

Stuck in the clouds  
That's my story and I'm sticking to it  
I'm high as a kite  
Don't bother me  
I'm out here probably doing the most From the minute I wake up I'm staring at the screen  
Watching the world go insane  
Gotta stay connected so I know what's happening  
In these streets  
Thank God for technology 'cause where would we be if we couldn't tweet our thoughts?  
Won't you leave some things to mystery?  
Opening your mouth removes all doubt  
So be quiet  
Technology is the key to it all  
Where did I lose my phone at?  
Doesn't really matter because you're already behind the curve  
It's okay to disconnect sometimes  
We're out here doing the most
