

Good Company

Jake Owen

We're just back porch sitting
Doing some old school picking
Got some brand new strings on my Gibson
Yeah, I'll play your favorite song
The cooler's down to the last drop
But it won't last that way long
Cause Tommy's making a beer run
So baby, come on
We in good company
Yeah, the only thing missing
Is a pretty girl sitting next to me
Kissing up on me, and I got a spot waiting on you
So B.Y.O.B, it means bring yourself over, babe
Got them good vibes, good times
And damn good memories
We in good company
Yeah, we in good company
Well, the pool's full, come on get in it
Got a hole, throwing bean bags in it
And Robby's painting on the brisket
It's a [?] masterpiece
You know they make Saturday's
For doing whatever you want
The weekend's where it begins
So baby, baby come on
We in good company
Yeah, the only thing missing
Is a pretty girl sitting next to me
Kissing up on me, and I got a spot waiting on you
So B.Y.O.B, it means bring yourself over, babe
Got them good vibes, good times
And damn good memories
We in good company, yeah
Oh, we in good company
We got them good vibes
Them good times
And damn good memories
We got that good wine
Off that good vine
It's a damn good night to be...
In good company
The only thing missing
Is a pretty girl sitting next to me
Kissing up on me, and I got a spot waiting on you
We in good company
Yeah, the only thing missing
Is a pretty girl sitting next to me
Kissing up on me, and I got a spot waiting on you

So B.Y.O.B, it means bring yourself over, babe
Got them good vibes, good times
And damn good memories
We in good company, yeah
We in good company
Yeah, we in good company
