

# Don't Get Any Closer

Bebe Rexha

What if I let you in and you don't like what you see?  
'Cause it's not what it seems, let me tell you why  
You have no idea, yeah, you only seen a piece  
But now it's underneath, no, I cannot lie Sometimes I get so frustrated  
I've tried a million times to say it  
It's so much easier to fake it  
So trust me Don't get any closer  
These walls are super high so don't even try  
To get any closer  
I'm scared you're gonna find  
All the things I've been hiding from you  
All the things I've been hiding from you  
What if you hear the thoughts that haunt me in my sleep?  
The secrets I don't speak running through my mind  
You have no idea, yeah, you only seen a piece  
But now it's underneath, no, I cannot lie Sometimes I get so frustrated  
I've tried a million times to say it  
It's so much easier to fake it  
So trust me  
Don't get any closer  
These walls are super high so don't even try  
To get any closer  
I'm scared you're gonna find  
All the things I've been hiding from you  
All the things I've been hiding from you
