

# Milk and Cookies

Melanie Martinez

1, 2, melatonin is coming for you  
3, 4, baby, won't you lock the door?  
5, 6, I'm done with this  
7, 8, it's getting late, so close your eyes, sleep for days  
Hush, little baby, drink your spoiled milk  
I'm fucking crazy, need my prescription filled  
Do you like my cookies? They're made just for you  
A little bit of sugar, but lots of poison too  
Ashes, ashes, time to go down  
Ooh, honey do you want me now?  
Can't take it anymore, need to put you to bed  
Sing you a lullaby where you die at the end  
9, 10, never want to see you again  
11, 12, I pull off black so well  
Shit behind the curtains that I'm sick of sugarcoat  
Next time you're alone, think twice when you grab the phone  
Ashes, ashes, time to go down  
Ooh, honey do you want me now?  
Can't take it anymore, need to put you to bed  
Sing you a lullaby where you die at the end  
Ashes, ashes, time to go down  
Ooh, honey do you want me now?  
Can't take it anymore, need to put you to bed  
Sing you a lullaby where you die at the end
