

# Our Loved Ones

## Volbeat

You open up and what you gain is another hole  
Reaching out for a hand and I know  
The fear of losing all the trust that it craves  
And I feel that parts of you are never coming back I used to think that life was ugly and a mess  
Well I was right but what to do other than your best  
The meaning of it all you find within yourself  
I hold the key but where's the door  
I kick it in  
Whatever that I want I will get  
I'll take the beatings too and all the blame  
But father you're the one that I miss  
I'm thankful that I have our loved ones near Whatever that I want I will get  
I'll take the beatings too and all the blame  
But father you're the one that I miss  
I'm thankful that I have our loved ones near The meaning of it all you find within yourself  
I hold the key but where's the door  
I kick it in  
Whatever that I want I will get  
I'll take the beatings too and all the blame  
But father you're the one that I miss  
I'm thankful that I have our loved ones near
