Turn It Down (Le Castle Vania Remix)

Kaskade & Rebecca & Fiona

I hold my breath when I hear lies
I tried to see your eyes blind
I hold my breath when I hear lies
I'm coloured blind when you deny (?)
There is no time to let your blood dry
You are in my heart
But before you make the beat loud
Can you turn it down
There is no time to let your blood dry
You are in my heart
But before you make the beat loud
Can you turn it down
can you turn it down
Can you turn it down
Can you turn it down
Can you turn it down
Can you turn it down
Illusions fade when feelings rise
I push them under as I hide
Illusions fade when feelings rise
I keep on finding reasons why
There is no time to let your blood dry
You are in my heart
But before you make the beat loud
Can you turn it down
There is no time to let your blood dry
You are in my heart
But before you make the beat loud
Can you turn it down
Can you turn it down
Can you turn it down
Can you turn it down
Can you turn it down
Can you turn it down
Can you turn it down
