

Supa

Chrisette Michele

Just because I love you
Doesn't mean I don't get mad
It just means I won't stay mad for long
Just because I love you
Doesn't mean I don't have bad days
Sometimes I wanna be alone
Just because I love you
Doesn't mean I don't want that
I am a human being with feelings Oh, let me get this straight
You got an attitude 'cause I don't wanna do things your way
I can't believe this, I don't need this
I'm a find somebody else who'll let me
And I'm pretty when I don't look my best
And I don't feel like I gotta have an S on my chest
Have an S on my chest
Yes yes, on my chest
I can't be supa all the time Sup so so supa
Sup so so supa
Sup so so, sup so so, sup so so supa Just because I'm your lady
Don't mean you can't treat me like a baby
Sometimes rock me to sleep in the heart
You call me woman
But every now and then I wanna feel like a little girl
Don't I make you want better?
Don't I make you feel better?
Oh baby ain't my love the best you ever had?
So why you gotta do me everything that I want
Oh, let me get this straight
You got an attitude 'cause I don't wanna do things your way
I can't believe this, I don't need this
I'm a find somebody else who'll let me And I'm pretty when I don't look my best
And I don't feel like I gotta have an S on my chest
Have an S on my chest
Yes yes, on my chest
I can't be supa all the time I know how much you're letting
But you can't expect me
To be altd all the time
I'd lose my mind
Yea, I could go crazy
Having this S all day
Across my chest all day
I'm sayin... Oh, let me get this straight

You got an attitude 'cause I don't wanna do things your way
I can't believe this, I don't need this
I'm a find somebody else who'll let me And I'm pretty when I don't look my best
And I don't feel like I gotta have an S on my chest
Have an S on my chest
Yes yes, on my chest
I can't be supa all the time Sup so so supa
Sup so so supa
Sup so so supa
Gotta be somewhere all the time, baby
Sup so so supa
Sup so so supa
I can't be supa all the time
And I'm pretty when I don't look my best
And I don't feel like I gotta a S on my chest
S on my chest, S on my chest
