

Roll with It

Massari & Mohammed Assaf

Roll with it
Roll with it habibi
Roll with it like you need me
Roll with it come see me
Roll with it oh oh oh I knew when you walked in the room
I saw you in the corner passing by
There's something in the way that
you move made me want to spend to night
And I can say you're feeling it too
And make this moment go by
So when I get closer to you
Roll with it habibi Roll with it like you need
me Roll with ti come see me Roll with it oh oh oh
