

Flower of the Universe

Sade

[Verse 1]

They come to see the fire burning in your heart
They want to witness, this love from the start[Chorus]

They hear you when you cry

This love is far and wide

When you smile the stars align

Flower of the universe

Ooh, child of mineOoh, ooh, ooh[Verse 2]

When you sleep softly the angels come

Like diamonds, like my love

They want to know it's true

There's someone in the world lovely as you

[Chorus]

They hear you when you cry

This love is far and wide

When you smile the stars align

Flower of the universe

Ooh, child of mine
