

# Can't Lie

Ali Gatie

If life was a movie  
I'd be your favourite actor  
You'd be my favourite scene  
You'd be my favourite chapter  
My eyes never left the screen  
Since I saw you, the one that I been after  
I could watch you over and over  
Filled my life w laughter  
And if life was a book  
You'd be my favourite author  
I'd read yours words night and day  
And I would never bother  
To leave  
You the only book I would read  
And If life was a song  
This would be my favourite song  
I wrote this when ur gone  
Wonder when your coming home  
Or if your coming home  
You been gone hella long  
And I been all alone  
You used to be comfort zone  
Used to be my one and only  
One I wanna hold  
Remember you would wanna hold me  
Falling in my arms  
So I fell for you  
Foolish move that I fell for you  
Cuz Baby yeah I need you  
I would never leave you  
Wonder how you left me  
You left me feeling empty  
And I can't lie you're see through  
I cannot believe you  
Even tho you did me wrong  
For some reason I need you  
And I can't lie miss you  
I forgot them issues  
How could you forget me  
When I could t forget you  
And baby yeah your special  
I couldn't forget you  
Even when i tried baby  
I couldn't forget you  
Girl I want you  
I need you back  
Girl Ill love you  
Even if you don't love me back  
And If life was a song  
This would be my favourite song
