YoungBoy Never Broke Again

[Intro]

This a pain song but I'm letting everything go
I promise when I speak specifically about anything
Cuz that's my showing I don't care no more
Ima just go on with my life
Until death call my name
Aye, aye I'm balling, smile yeah
Paper up on the bitch put he ain't playing though [Chorus]
Too many problems (yeah)
Thinking how I'm gone solve it (yeah)
So much pain in my body (yeah)
They selling lies and I bought it (yeah)
Don't tell me that you love me, if you ain't going to die for me
You can stay to fuck from round me
If you ain't gonna ride for me
Tell me you would never leave
How could you just lie to me (yeah)
Get from off your knees you ain't got to cry to me (yeah)
I been giving all my love, tell me do you feel it
Never learn gotta trust sittin' in penitentiary
All for you I'll take a slug baby
Who the realest had to tell her I'm a genie
I can answer wishes (yeah)

[Verse 1]

I got my static when you ride with me
We got pulled over no you ain't going to do no time for me
I put my hands up police drew down on me
So many charges make me wanna go way over seas
Reminiscing bout them days I was sittin' up in that cage
I was beggin' you to stay and you hung up in my face
Free Kodak, everything gettin' slayed
They keepin' beggin' me to change
Talked to Future the other day and he say I need to change lanes (yeah)
Cause they gon' try to count you out til you make them count you in (yeah)
Stimulate my brain (yeah, yeah) had to tell 'em I ain't leaving out the same way I came in
(yeah) (oh, fuck what i saying)
Whole lot a heron, I sell that shit right in front of my mind
Swear I would never run just like a man ima face my problems Even when my voice fucked up
Ima speak in the booth Ima throw in like a goblin
Nigga got me fucked up
Ima spin on his block, I admit that I had shot him
VVss in my chain tell that hoe Young Thug everything

Hearing voices in brain hoping everything change
I been rolling through the streets and been clinching on my heat
I put blood out on my feet and I put cameras on my trees (baby)
Said I change on you, but I feel that you changed on me
I said my prayers and you going to sow just what you read
I been talking Adderall mixing it with lean
Hope I don't wake in my sleep

[Chorus]

Too many problems (yeah)
Thinking how I'm gone solve it (yeah)
So much pain in my body (yeah)
They selling lies and I bought it (yeah)
Don't tell me that you love me, if you ain't going to die for me
You can stay to fuck from round me
If you ain't gonna ride for me
Tell me you would never leave
How could you just lie to me (yeah)
Get from off your knees you ain't got to cry to me (yeah)
I been giving all my love, tell me do you feel it
Never learn gotta trust sittin' in penitentiary
All for you I'll take a slug baby
Who the realest had to tell her I'm a genie
I can answer wishes (yeah)[Verse 2]
Been in love never help me solve my problems
I wish that I could find a girl just like my momma
I don't wanna hurt nobody, but still ride around with that kiper
Zole life to the end, tell them free the main sniper[Outro]
Yeah (I call that)
That's life last night
That's all life
I said that's life last night
Yeah
That's life
