

# Imaginary Friend

Tove Lo

People said you're not a superstar  
Can't jump that far  
You know better  
Got my armour on with superglue  
Can power through  
Yeah, whateverCrushing my heart, tear me apart  
Hate on this world 'cause reality sucks  
Feeling their doubt, shut them all out  
Crushing my heart, tear me apart  
Hate on this world 'cause reality sucks  
Feeling their doubt, shut them all out  
'Cause I need you  
Imaginary friend, stay with me 'til the end now  
Keeping me dreaming  
Imaginary friend, stay with me 'til the end now  
Over, over again  
(Don't you know I)  
Keeping me dreaming  
(Don't you know I)  
Over, over again  
(Don't you know I)Breaking bones to feel like I'm alive  
How kids get high  
Need to feel it  
We want big things, but they make us small  
No game at all  
They don't feel it  
Crushing my heart, tear me apart  
Hate on this world 'cause reality sucks  
Feeling their doubt, shut them all out  
Crushing my heart, tear me apart  
Hate on this world 'cause reality sucks  
Feeling their doubt, shut them all out  
'Cause I need youImaginary friend, stay with me 'til the end now  
Keeping me dreaming  
Imaginary friend, stay with me 'til the end now  
Over, over again  
(Don't you know I)  
Keeping me dreaming  
(Don't you know I)  
Over, over again  
(Don't you know I)Crushing my heart, tear me apart  
Hate on this world 'cause reality sucks

Crushing my heart, tear me apart  
Feeling their doubt, shut them all out  
Over, over again(Don't you know I)  
Keeping me dreaming  
(Don't you know I)  
Over, over again  
(Don't you know I)  
Imaginary friend, stay with me 'til the end now (Oh)  
Keeping me dreaming  
Imaginary friend, stay with me 'til the end now  
Over, over again  
(Don't you know I)I don't know  
I guess it's kinda like a voice in my heart  
Reminding me that there's nothing to fear in the things I'm afraid of
