

# Storm to Pass

Atreyu

Razor wire  
Give backs for things we've done  
After thoughts  
Of past storms weathered before Oh no! Oh no!  
I watch the clouds roll in  
Oh no! Oh no!  
It's happening again I'll be  
Watching, waiting  
Dreadful, shaking  
Will the storm pass over us today?  
Will lightning strike our sins away?  
Watching, waiting  
Fallen, shaking  
Will the storm pass over us today?  
Or is our future looking grey? Aftermath  
Much worse than it was before  
Battle scars  
Some are seen and some are not Oh no! Oh no!  
I watch the clouds roll in  
Oh no! Oh no!  
It's happening again I'll be  
Watching, waiting  
Dreadful, shaking  
Will the storm pass over us today?  
Will lightning strike our sins away?  
Watching, waiting  
Fallen, shaking  
Will the storm pass over us today?  
Or is our future looking grey? You can't hide from the dark  
Well I never thought it'd turn out this way, yeah  
You can't hide from the dark Watching, waiting  
Dreadful, shaking  
Will the storm pass over us today?  
Will lightning strike our sins away? Watching, waiting  
Fallen, shaking  
Will the storm pass over us today?  
Or is our future looking grey? Hey, hey!
