

# Give Me You

## Brandy

Is there a problem  
That you can't solve? (whoa)  
You're all alone  
And no one wants to get involved But I have a friend  
He'll always be around (be around)  
And He'll never leave you  
He will never let you down Chorus - All He said He wants from you  
All He said you have to do  
Give Me you  
All He said He wants from you  
All He said you have to do  
Give Me you  
You're always saying  
That love is such a heavy burden  
You need someone in your life  
Who will give more loving than hurting (oooh yeah) He'll never forsake you  
He will always be around (be around)  
And He'll never leave you  
He will never let you down Repeat chorus  
You can call Him in the morning  
You can call Him in the noonday  
You can call Him in the evening  
Give Him you  
You can call Him in the morning  
You can call Him in the noonday  
You can call Him in the evening  
Give Him you  
Give Him you...
