Cracks (Flux Pavilion Remix)

Freestylers

Leave the past behind, just walk away
When it's over, and the heart break
And the cracks begin to showAnd the cracks begin to showLeave the past behind, just walk away

When it's over, and the heart break
And the cracks begin to show
Begin to showLeave the past behind
Begin to show

Leave the past behind, walk away When it's over, and the heart break

And the cracks begin to showLeave the past behind, just walk away

When it's over, and the heartbreak

And the cracks begin to showAnd the cracks begin to showLeave the past behind, just walk away

When it's over, and the heart break
And the cracks begin to show
Begin to show
Leave the past behind
Begin to showLeave the past behind, just walk away
When it's over, and the heart break
And the cracks begin to show
