

# I Am

## Hollywood Undead

I'm just a sick man living in a sick land  
Choking on this smoke of a billboard romance  
Anybody know where the pigs put my coke oh  
Change them plates on a powder blue desoto  
Fuck no! It ain't Johnny 3 T  
Not till the good lord comes to keep me  
Keep these are you weak and weeping  
Sweating on the floor when you come to see me  
Victims, and you're proud of no bitches  
I hear your cluck but you duck duck duck  
And now we're too deep, here's number 3  
It's sick I'm sick shit is just like me I am never forgotten!  
This is the anthem for the sick and rotten  
I am never forgotten!  
This is the anthem for all you sick and rotten  
Step up and get knocked back  
You'll end up as blue black  
And goes with the riff raff  
So fuck all the feedback  
We pack it up tightly  
We roll it up nicely  
Rock dickies like Nikes  
Running beside these  
Real rock stars fuck smashing guitars  
You learn to sink or swim  
You're swimming with sharks  
I look up in the rear view  
Johnny in the mix too  
Scraping up the clubs in my Cadillac 6  
I'm fresh out of 6 packs  
Making this 8 track  
Who got a zigzag?  
I'll read you my fold plaque  
To all the rock stars, powdered nose and glitter  
Is it hard to be sick when you know that I'm sicker?  
I am never forgotten!  
This is the anthem for the sick and rotten  
I am never forgotten!  
This is the anthem for all you sick and rotten Who created this madman?  
Who puts a matchstick in your ass crack?  
Makes you lap dance on a gas can  
So don't sit down get down on this track man

Shake your hips now this shit ain't no slow jam  
No this is your last chance  
To get your ass smacked with back  
And take a cat nap with the sandman  
So don't sit down get down with the program  
Because I'm sick with a dick thick like a coke man  
So bury your romance  
Olivia Brohen  
Matt Berry and Conan with barbarian gonads  
Bury opponents, Siberian slow dance  
King of the throne with rhymes fatter than Rosanne I am never forgotten!  
This is the anthem for the sick and rotten  
I am never forgotten!  
We've got the anthem to save the sick and rotten No matter we don't know  
Together we don't slow  
No matter we don't know  
Together we don't fall  
No matter we don't know  
Together we don't slow  
No matter we don't know  
Together we don't fall
