

# Good Times

## The Jacksons

I think about the good times  
We shared together  
Whenever I think of youSomething goes through my mind  
Through my mindMy heart starts churning  
I wanna see you againI think about the good times  
Nothing but the good times  
I think about the good times  
We shared together  
Oh, like holding hands  
Remember how we made our plans  
We used to dream on a star  
How did we get like we areI think about the good times  
Nothing but the good times  
I think about the good times  
We shared togetherIt's funny things don't always  
Go the way you want them to  
Although we're not together  
I treasure my experience with youOh, like exploring love  
Moonlit sky above  
Learning how to give  
Learning how we should live  
(Good times)  
Oh, the good times baby  
I think about it  
Good times  
We shared together  
Oh, good times  
Ain't nothing like the good times  
The good times baby  
I think about it  
About the good times  
We shared together  
Together, together  
I think about it(Long as we live)  
I remember, yes I remember  
As long as we live  
I'll think about  
(The good times, baby)  
Yes, the good times  
The real good times(Holding hands)  
(Exploring love)  
(Learning how to give)

(Learning how to live)  
(Learning how to love)  
(The good times, baby)(Good times)  
Good times  
Yes, the good times  
(Good times)  
Good times  
(The good times, baby)
