

# Slow Down (feat. Jenna Pemkowski)

## Zeds Dead

Would things be different if I could just find you?  
Could you remember if I just remind you?  
We could start over and just tell the time to (tell the dark to)  
Slow down, slow down, slow down, slow down. What's That Line? Slow down, slow down This  
room is cloudy feels like my mind  
Nowhere to go  
Cause you're so hard to find.  
(What if I???)  
Or should we just let go?  
I know you'd kill for one last taste.  
I can't be found can you to blame.  
We had no clue and now I know.  
Slow down, slow down, slow down, slow down.  
Would things be different if I could just find you?  
Could you remember if I just remind you?  
We could start over and just tell the time to (tell the dark to)  
Slow down, slow down, slow down, slow down.
