

Used to Be

GASHI

Tootsies on the top floor spinning dough
Five-forty-five and I'm getting dough
If you didn't know, bitch, now you know
Pop that pussy, pop a pill, then leave me alone
Woah, first I gotta break it, then I gotta take it
Now I'm feeling all wavy, yeah, I'm feeling amazing
Please don't try to wake me, cause I'm on vacation
'Bout to start going crazy, yeah, I'm feeling faded
You got me losing my mind
Every night I pop another pill to sleep
They keep saying there ain't nothing wrong with me
I'm just so obsessed with how things used to be, used to be
Tell 'em they don't know what they think they know
Seen it all before, seen it all before
Best friends switching sides, now it's fuck 'em all
Getting high on the low, please don't call my phone
Switch up, first I gotta break it, then I gotta
take it
Now I'm feeling all wavy, yeah, I'm feeling amazing
Please don't try to wake me, cause I'm on vacation
'Bout to start going crazy, yeah, I'm feeling faded
You got me losing my mind
Every night I pop another pill to sleep
They keep saying there ain't nothing wrong with me
I'm just so obsessed with how things used to be, used to be
For a while ain't no child with a sound like me
I can tell that these boys wanna sound like me
Got my fours and they all gonna ride for me
Shoot you from the neck up like a fucking I.D
For a while ain't no child with a sound like me
I can tell that these boys wanna sound like me
Got my fours and they all gonna ride for me
Shoot you from the neck up like a fucking I.D
