

# Never Say Goodbye (feat. Bright Lights)

Hardwell & Dyro

You'll never fly, if you're too scared of the height  
You'll never live if you're just too scared to die  
Everybody wants heaven... I know  
but darling freedom ain't free, its a long road  
You'll never find your place up there in the sky...  
If you never say goodbye...  
If you never say goodbye. You'll never fly, if you're too scared of the height  
You'll never live if you're just too scared to die  
Everybody wants heaven... I know  
but darling freedom ain't free, its a long road  
You'll never find your place up there in the sky...  
If you never say goodbye...  
If you never say goodbye.
