

# Shadow

Josh Hoge

Driving in the pouring rain  
Wishing you would wash away  
Thought I left you far behind  
Back when we both said goodbye  
You're in every face I see  
Even strangers on the street  
You live in this radio  
There's nowhere that I can go  
Try to run, I try to hide  
I leave your memory behind  
Like a shadow you won't leave  
I take you everywhere with me  
Take you everywhere with me  
I would walk across the world  
A million miles from what we were  
If that would free me from your chains  
Help me forget your name  
Try to run I try to hide  
I leave your memory behind  
Like a shadow you won't leave  
I take you everywhere with me  
Take you everywhere with me  
I can't shake you  
I can't make you go away  
And I can't take this haunting me for one more day  
Try to run, I try to hide  
Leave your memory behind  
Like a shadow you won't leave  
I take you everywhere with me  
Try to run, I try to hide  
I leave your memory behind  
But like a shadow you won't leave  
I take you everywhere with me  
Take you everywhere with me
