

That's Okay

Marc Anthony

i remember how it used to be
when you said you were in love with me

now i'm all alone
sitting by the phone
there's that memory
hangin' over me

oh, you were something
and now we're nothing

chorus:

i still can't believe
you're leaving me
in the middle of what used to be

our thing
that's okay

and i still don't see
a reason for you killing me
the way you did

that day
that's okay

i can't shake all that you promised me
can't believe i let it conquer me

now you're on your way
to that better day
and i'm here at home

sitting all alone

oh, you were something
and, that's why we're nothing

repeat chorus
