

U Say

The Bonfyre & 6LACK

Run it down, let's run a play now
You know how to kill a vibe
We in and out on the regular And are you really where you say you are?
Right or wrong, I stick witcha
You didn't get that shit on your own
You know I always keep it real witcha
You switchin' on and up like a clown
Paranoid not gonna play me
Tried to hide your Mercedes
You ain't sayin' nothin' baby
Won't accept another maybe
FaceTime, you better face me
Got me out here lookin' crazy
Ain't no time for talking crazy
Watcha sayin' to me, uh
You say a lotta things
You say a lotta things, yeah
You say a lotta things
You say a lotta things, yeah You say a lotta things,
You say a lotta things, yeah
You say a lotta things
You say a lotta things, yeah You say a lotta things
You say a lotta things, yeah
You say a lotta things
You say a lotta things, yeah You say a lotta things,
You say a lotta things, yeah
You say a lotta things,
You say a lotta things, yeah
I say a lot more than I really like to
Despite being that honest, I ain't tryna spite you
I was in shock, had to write you
Short lived like a haiku
Top five maybe top two
And we all know, I am not two
Runnin' off at the mouth
What the hell you talkin' 'bout
You say a lotta things
You like the finer things
I buy you a diamond ring, then I take it back
Cause maybe I'm in a rush
And it's just a timing thing, yeah You say a lotta things
You say a lotta things, yeah

You say a lotta things
You say a lotta things, yeah You say a lotta things
You say a lotta things, yeah
You say a lotta things
You say a lotta things, yeah (you say too many things) You say a lotta things
You say a lotta things, yeah
You say a lotta things
You say a lotta things, yeah You say a lotta things
You say a lotta things, yeah
You say a lotta things
You say a lotta things, yeah You wanna stay in love, I wanna stay alone
You wanna stay in love, you wanna stay and I wanna be alone
So lonely 'cause you wanna be
You wanna be with me
Said you wanna be with me for real
You just wanna be with me for real
Oh, yeah
Oh You say a lotta things
(You say a lotta things, babe)
You say a lotta things, yeah
You say a lotta things
(You say a lotta things, babe)
You say a lotta things, yeah You say a lotta things
(Boy I'm so tired of you)
You say a lotta things, yeah
You say a lotta things
(You say a lotta things)
You say a lotta things, yeah You say a lotta things
You say a lotta things, yeah
You say a lotta things
You say a lotta things, yeah You say a lotta things,
You say a lotta things, yeah
You say a lotta things,
You say a lotta things, yeah
