

# Her Grace (feat. Chronixx)

## Maverick Sabre

[Verse 1: Maverick Sabre]

Who heard her call?

Unlock the door

She lost her smile behind the curtains as she falls

There's blood on the drawers

She's numb from the force

And through the silence through the night he came and stole...[Verse 2: Chronixx]

...Her grace

Now she's an angel fallen down to the darkest place

Just like a bird without her wings she fell from grace

Can't say she never look for love

'Cause the world never good enough

Inna the worst neighbourhood she grow

And she could write a book to how

Much she learned from the crooks

She know how to sell and to cook

She soaring then she fell and then hit the floor

She not so gracious no more

[Chorus: Maverick Sabre]

When I wake up and look out the window

I can see teardrops fall from her face

Beautiful princess got lost in the moment

And where did her wings go

She falls from her grace This won't leave in the morning

This won't leave in the morning

This won't leave in the morning

This won't leave in the morning[Verse 3: Chronixx]

Vanish away like the darkness on a bright and sunny day

It's the only way that the light inside of you can take its place

This cold world will break your heart and leave you crying in the dark

You need someone to hold your hand

Shine their light and keep you warm

[Pre Chorus: Maverick Sabre]

She's lying on the bathroom floor

And she don't want to feel no more

And she can't even scream to call

He beats, he tore, she bleeds, she hurts

And her mother won't believe a word

So she struggle to believe herself

A beautiful rose got covered over in the dirt again[Chorus: Maverick Sabre]

When I wake up and look out the window

I can see teardrops fall from her face

Beautiful princess got lost in the moment  
And where did her wings go
