

Judas

The Shimmies

Coming down again
Feels about the same
As when I lost my teeth
Like words with letters in between I fell into a hole
With no memory of where I'd been
When I finally figure out
You'll be the first to know Oooh I wear it in my bones
The skin I've worn off my knees
A signal in my spine
That tells me I'm asleep
Oooh Hey Judas
I'm a ghost now
Can we talk
Oh can't you hear me
Well the truth is
I'm alone now
With the words
You led me to believe So call this a lesson
Skin tastes better when it's burned
So now I'll tell you how
How to disappear Oooh
Hey Judas
I'm a ghost now
Can we talk
Oh can't you hear me
Well the truth is
I'm alone now
With the words
You led me to believe Oooh Hey Judas
I'm a ghost now
Can we talk
Oh can't you hear me
Well the truth is
I'm alone now
With the words
You led me to believe Oooh
