

Show Me

Big Time Rush

Guys like me,
Like girls like you
And girls like you
Like guys like me (You know) I blaze the night
In Harbor lights
You dressin' light
It's fittin' right
I hear the waves
I see you wave
I'm stayin' put
You say 'no way'
The track begins
You pull me in
I touch your skin
You tremblin'
It's in your eyes
You're here to win
So let the game, games begin I-I-I
Wanna see
You-you-you-you
Telling me
That, that
That you got what I need
Do pretty girl,
Don't speak
Baby, show me
By the way you hold me
Way that you control me
Speed me up, or slow me
Oh, when I'm lonely
Full o' the stormy weather
Can you make it better
I heard what you told me
So, oh oh show me Know what you want
My number for
Ain't talked enough
Let's talk some more
You kinda cute
Don't hit the mute
Just aim and shoot,
Or get the boot I-I-I
Wanna see

You-you-you-you
Telling me
That, that
That you got what I need
Do pretty girl,
Don't speakBaby, show me
By the way you hold me
Way that you control me
Speed me up, or slow me
Oh, when I'm lonely
Full o' the stormy weather
Can you make it better
I heard what you told me
So, oh oh show meGuys like me
Like girls like you
And girls like you
Like guys like meGuys like me
Like girls like you
And girls like you
Like guys like meBaby, show me
By the way you hold me
Way that you control me
Speed me up, or slow me
Oh, when I'm lonely
Full o' the stormy weather
Can you make it better
I heard what you told me
So, oh oh show meGuys like me
Like girls like you
and girls like you
Like guys like meOh, when I'm lonely
Full o' the stormy weather
Can you make it better
I heard what you told me
So, oh oh show me
