

# Winter

## Blondie

I never know which way the wind is blowing by  
Never want to know what's really there inside your mind  
If honesty kills, you're gonna have a long life  
But babe I like you still  
It's not right, It's not right When you call me I never think twice  
But when I get there you're cold as ice You're so cold, I don't want you near  
It's always winter when you're here  
I'd be surprised if a Leopard changed it's spots  
But I wouldn't mind, even if I died of shock  
If honesty kills, you're gonna have a long life  
But babe I like you still  
It's not right, It's not right When you call me I never think twice  
But when I get there you're cold as ice You're so cold, I don't want you near  
It's always winter when you're here  
Seasons won't change when you're around  
You bring the winter to this town When you call me I never think twice  
But when I get there you're cold as ice  
You're so cold, I don't want you near  
It's always winter when you're here  
Seasons won't change when you're around  
You keep the winter and freeze me out
