

# Slow Down

## Ozzy Osbourne

I'll never bother keeping up with you  
Burning the candle at both ends it's true  
You know the writing's on the wall  
Why do you ride to take a fall Slow down you're moving way too fast  
(Your feet don't ever touch the ground)  
Slow down You know you'll never last  
(You're seeking that which can't be found)  
Slow down your haste is making waste  
(Your feet don't ever touch the ground)  
Slow down and join the human race  
(You're seeking that which can't be found)  
I tried to tell you time and time again  
You know you'll have to pay the consequence  
Now you're obsessed with such a pace  
Now slow and steady wins the race Slow down you're moving way too fast  
(Your feet don't ever touch the ground)  
Slow down You know you'll never last  
(You're seeking that which can't be found)  
Slow down your haste is making waste  
(Your feet don't ever touch the ground)  
Slow down and join the human race  
(You're seeking that which can't be found) You seem to turn around and round in vain  
You're like the dog that tries to catch his tail  
Tell me just what you're running from  
One day you're here and the next you're gone  
Slow down you're moving way too fast  
(Your feet don't ever touch the ground)  
Slow down You know you'll never last  
(You're seeking that which can't be found)  
Slow down your haste is making waste  
(Your feet don't ever touch the ground)  
Slow down and join the human race  
(You're seeking that which can't be found)
