

Sparkle Eyes

Steppenwolf

Oh Woman, don't you know me?
Has it been so long that you forgot
 I thought of you just yesterday
 My time it has been dragging
And I've changed girl but so have you
 Please don't turn your face away
 It's in your eyes I know
Where did the sparkle go?Sparkle eyes used to shine ev'ry day
 God, I wish I never had seen you looking this way
 Can't recall just who was wrong
 Guess it doesn't matter now
 To dredge the past I've no desire
 But it hurts to feel your sadness
 And to see the life you've led
 Faceless fountains cooled your fire
 It was mine not long ago
Where did the sparkle flow?Sparkle Eyes used to smile at the rain
 Don't I wish that I could see it again
Where did the sparkle go?Now if I only knew where to begin
 Girl, I'd try to break your fall and stop your spin
 But time has changed us both too many ways
 And I'm looking at a strange and empty face
 And your eyes used to shine every day
 If I had only never seen you lookin' this way
 Those faceless fountains they cooled your fire
 It was mine not so very long ago
 Your eyes would laugh at the rain
 You don't know how I wish I could see it again
 I just can't stand to watch you goin' down slow
 Where did the sparkle go?
