

# Drink It Off

## Parmalee

You've got that look like you don't wanna be here, baby  
Café Patròn starin' at your phone  
Gettin' your lolly on  
Couldn't help but to see this empty seat here, baby  
By the way, your friends just told me  
What you've got goin' on No I don't wanna crash your party  
But they said you were broken-hearted  
Girl I know it ain't your fault  
Why don't you let me help you drink it off  
Yeah here's to movin' on on the weekend  
And if you wanna turn up then we can  
Break out the lime and the salt  
I can help you drink it off  
Drink it off  
Drink it off  
I can help you drink it off  
I can help you drink it off  
I can help you drink it off Sometimes we need a little help with the goodbye, baby  
There ain't no shame, yeah we're all the same  
Playin' this crazy game  
Let me turn your bad breakin' to a good time, baby  
Bottoms up, here's to love  
And I don't even wanna know his name No I don't wanna crash your party  
But they said you were broken-hearted  
Girl I know it ain't your fault  
Why don't you let me help you drink it off  
Yeah here's to movin' on on the weekend  
And if you wanna turn up then we can  
Break out the lime and the salt  
I can help you drink it off  
Drink it off  
Drink it off  
I can help you drink it off  
I can help you drink it off No I don't mean to be that guy  
But I gotta tell you girl, I can't lie  
He ain't worth it, you don't deserve this  
Baby you're perfect No I don't wanna crash your party  
But they said you were broken-hearted  
Girl I know it ain't your fault  
Why don't you let me help you drink it off  
Yeah here's to movin' on on the weekend  
And if you wanna turn up then we can

Break out the lime and the salt  
I can help you drink it off Drink it off  
Drink it off  
I can help you drink it off  
I can help you drink it off  
I can help you drink it off  
Drink it off  
I can help you drink it off  
I can help you drink it off  
I can help you drink it off
