Unglued

Caroline's Spine

i didn't know this was right,
but i'll remember this night
for the rest of my life.
you'd never hurt me
the way i hurt myself.
little boys need help.
and you're all the help i think i need.when we're alone
when we're alone
when i'm alone i'm thinking about
something in your eyes makes me come unglued.
inside you...
well, i didn't know this was wrong.
but for the first time in my life
i felt like i finally belong.
and you'd never hate me
the way i hate myself.
little boys need help,
and you're all the help i think i need.when we're alone
when we're alone
when i'm alone i'm thinking about
something in your eyes makes me come unglued.
inside you...this old man, he played one,
he played knick-knack on my thumb.
this old man, he played two,
he gave me a sign and it sent me back to you!
when we're alone.
i'm gonna find us a home.
when i'm alone i'm thinking about
something in you eyes makes me come unglued.
