

Rock You Sweet

Dustin Lynch

Just holding your hand
While the sea breeze blows
And the waves roll in
Swaying those boats
Girl, it makes me think
I'd like to rock you sweet Up ahead on the dock
There's a little jam band
It's not a far walk
If you want to dance
In your bare feet
And I could rock you sweet
And if we get on a roll
Start feeling something deep
Baby, just let go and I'll rock you
Rock you sweet How'd it get so late?
I don't wanna go home
There's a hammock over there
Big enough for both
You can drift off to sleep
While I rock you sweet And if we get on a roll
Start feeling something deep
Baby, just go and I'll rock you
Rock you, rock you, rock you And if we get on a roll
Start feeling something deep
Baby, just go and I'll rock you
Rock you, rock you, rock you
Rock you sweet
Rock you sweet
Rock you sweet
Rock you sweet
