

# Between Us (feat. Snoh Aalegra)

[dvsn](#)

Ah  
Whatcha doin'?  
Really  
You know I'm comin' over, right?  
Ayy, baby, tell me whatcha wanna do Let me start by sayin' sorry  
Some days I take your time for granted  
You could be the star in my universe  
If I just took time to plan it  
Told me secrets you ain't wanna  
Trust is big for you, that's why I'm keeping it a hunna  
Crazy vulnerable shit in common  
Just keeps us apart when we should be starting  
To keep our promises, we could be promisin'  
You say I'm closed off  
Let's open up and take our clothes off  
I don't want nothing in between us  
Nothing there to stop the feeling  
I don't want nothing in between us  
Got me thinking this might be love  
Oh, oh  
Oh yeah Don't be sorry, just be careful, baby  
Know my heart is fragile  
Don't say shit that you don't really mean  
'Cause that's just hard to handle  
I loved it most when it was just me and you  
Then know the truth so we gon' watch how we move  
But nothin' beats the feelin' that you givin' me  
Even if it ain't forever, ooh  
Just keep it honest, we made some promises  
They got opinions, but that won't change a thing  
We got each other, let's shut the world up  
And take our clothes off, baby, yeah  
I don't want nothing in between us (Ooh, oh)  
Nothing there to stop the feeling (Yeah, yeah, yeah)  
I don't want nothing in between us (Nothin' else between us, oh, oh)  
Got me thinking this might be love (Be us, yeah)  
Oh, oh  
Oh yeah
