## RHODES

Let's stay out tonight  
I feel like I wanna feel like  
How can I see the light  
When the darkness is so bright  
I wanna be like  
I wanna be like you want me to  
It's a perfect summer night  
But I know my head's not right  
How many hours till sun rise?  
We'll light the way like fireflies  
I wanna be like  
I wanna be like you want me to  
I feel so much better now  
Do you feel like you feel alive?  
I feel so much better now  
I feel so much better now  
My heart wasn't there  
But it is now  
No, I didn't care  
But I do now  
I feel so much better now  
Do you feel like you feel alive?  
I feel so much better now  
I feel so much better now  
I wanna be like  
I wanna be like you want me to  
I feel so much better now  
Do you feel like you feel alive?  
I feel so much better now  
I feel so much better now  
I feel so much better now  
Do you feel like you feel alive?
