

# Gotta Get Out

## Endeverafter

Ain't no particular time at all  
Guess that's what it's like to fall for you  
Don't even know why I work so hard  
Just to try to keep you in my arms  
When you love some for so long So I'm going out tonight, I'm gonna get me some  
And I don't care anymore, I wanna have some fun  
Bartender, I want you pour me another one  
'Cause I know, I know I can't stay Gotta get out, gotta get out, I gotta get out  
Gotta get out, gotta get out, woah  
Gotta get out, gotta get out  
I gotta get out of this place  
I'm planning my escape  
With cigarettes and some alcohol  
It's all I need to break the wall of you  
Don't even know why I work so hard  
It's the element of all your charm  
That tonight I will dissolve So I'm going out tonight, I'm gonna get me some  
And I don't care anymore, I wanna have some fun  
Bartender, I want you pour me another one  
'Cause I know, I know I can't stay Gotta get out, gotta get out, I gotta get out  
Gotta get out, gotta get out, woah  
Gotta get out, gotta get out  
I gotta get out of this place  
I'm planning my escape  
Come on Gotta get out, gotta get out, I gotta get out  
Gotta get out, gotta get out, woah  
Gotta get out, gotta get out, I gotta get out, woah  
This place I don't wanna be  
Would you please put me out of my misery?  
This place I don't wanna be  
Would you please put me out of my misery? This place I don't wanna be  
(Gotta get out, gotta get out)  
Would you please put me out of my misery?  
(Gotta get out, gotta get out) This place I don't wanna be  
(Gotta get out, gotta get out)  
Would you please put me out of my misery?  
(Gotta get out, gotta get out) So tonight I'm going out  
I'm gonna get me some  
And I don't care anymore  
I wanna have some fun Gotta get out, gotta get out  
Gotta get out, gotta get out  
Gotta get out, gotta get out

Come on, yeahGotta get out, gotta get out  
I said, I gotta get out  
Gotta get out, gotta get out, woah
