

# Like We Ain't Ever

Luke Bryan

Late I buy, stumble a few thousand beers in my day  
You put down twice as many  
No telling how many bomb fires have lit up my face  
If they ain't hundreds, it ain't many  
I stood on this stage so many times  
Being watched on my friends  
Havind the time of your life  
There's something in this Spring time air tonight  
And we're gonna do it up bright...Like we ain't ever  
All been together  
Let's try to make one night last forever  
Once you're sconded, you can't get it back  
So leave a mark, y'all, where you at  
Let's fill up on this feel good rock we don't know... know better  
Like we ain't ever  
This ain't the first time we've partied under the stars  
Making a hung over  
Well, this time I got a few more songs in this old guitar  
For you to pull your baby closer  
You pull your baby closerLike we ain't ever  
All been together  
Let's try to make one night last forever  
Once you're sconded, you can't get it back  
So leave a mark, y'all, where you at  
Let's fill up on this feel good rock we don't know... know better  
Like we ain't everYeah, There's something in this Spring time air tonight  
And we're gonna do it up bright...  
Let's do it up bright ...  
Like we ain't ever  
All been together  
Let's try to make one night last forever  
Once you're sconded, you can't get it back  
So leave a mark, y'all, where you at  
Let's fill up on this feel good rock we don't know... know better  
Like we ain't everLike we ain't everLike we ain't ever
