

# Falling

Mindy Smith

It seems like  
Out of nowhere  
I'm coming apart  
Nothing could've saved me  
You went straight for my heartWhen I've almost had enough  
Something about you draws me back again  
When I've almost given up  
Something about you pulls me in  
And we're falling  
Feels like  
I am reaching  
Tryin' to hold on to you  
And I know that  
There's still hope here  
And I know you'll come throughWhen I've almost had enough  
Something about you draws me back again  
When I've almost given up  
Something about you pulls me in  
And we're falling  
When I've almost had enough  
When I've almost given up  
We start falling  
And we're falling
