

Heatwave

Florida Georgia Line

Baby girl im caught up in your heatwave
Your hot like the end of june
It's not like your gonna quit of soon
The spotlight looks good on you (Looks good on you)
Shadow's hit you like a head dress
Key to my heart on your necklace
Between summer girl and that sun dress i'm sweating and i'm reckless
Moon dance in the starlight got two hand's on your hips tonight
It's hot as hell but it's just right let me drop a double shot on your crystal light
Midnight sweat cherokee skin can't cool of but i'm cool within
Love this love were making baby even if it's raining
Talk about a heatwave watch your body
Move to the beat babe feels like were having a beach day lighting while your feet sway
I'm caught up in your heatwave
Baby girl i'm caught up in your two piece in the water
That's all me i got her theres gonna be some lightning at the bottom of this bottle
Yeah drawing our names in the white sand call it what it is i'm the right man
Mountain ice on your right hand but i'm gonna put a rock on your left baby
Moon dance in the starlight got two hand's on your hips tonight
It's hot as hell but it's just right let me drop a double shot on your crystal light
Midnight sweat cherokee skin can't cool of but i'm cool within
Love this love were making baby even if it's raining
Talk about a heatwave
Moon dance in the starlight got two hand's on your hips tonight
It's hot as hell but it's just right let me drop a double shot on your crystal light
Midnight sweat cherokee skin can't cool of but i'm cool within
Love this love were making baby even if it's raining
Talk about a heatwave
Baby girl i'm caught up in your heatwave
Baby girl i'm caught up in your heatwave
