

# Calm Down

## Skip Marley

I thought we figured out how not to spill blood  
I thought we figured out to walk away  
I thought we found that love was not a failure  
Decided that the sea would have no waves  
And it kills me 'cause I get worked up and you get  
worked up  
And we get worked up for nothing, yeah  
I get worked up and they get worked up  
And we get worked up for what? Calm down, calm down  
Calm down, oh, calm down  
Is this the way it is for other people?  
I wonder if they feel it like I do  
I know there is more than there is evil  
A war is just a waste of me and you  
And it kills me 'cause I get worked up and you get worked up  
And we get worked up for nothing  
I get worked up and they get worked up  
And we get worked up for what? Calm down, calm down  
Calm down, oh, calm down  
Oh, calm down  
Calm down, oh, calm down  
Time to figure it out, when people living in doubt  
Brother, look further, take care of each other  
Stressing over, about if you need it, then you can shout  
My sister, look further, yeah, you're the preserver  
Time to figure it out, when people living in doubt  
I get worked up and you get worked up and  
Stressing over, about if you need it, then you can shout  
We get worked up for what?  
Calm down, calm down  
Calm down, oh, calm down  
Oh, calm down  
Calm down, oh, calm down  
Calm down, calm down  
Calm down, oh, calm down  
Oh, calm down  
Calm down, oh, calm down  
Oh, my brother, sister, my mother  
Got to get together, oh, calm down  
Oh, calm down
