

# Together As One

## Lucky Dube

In my whole life  
My whole life  
I've got a dream  
I've got a dream  
Too many people  
Hate apartheid  
Why do you like it?  
Why do you like it?  
Hey you rasta man  
Hey European, Indian man  
We've got to come together as one  
Not forgetting the Japanese  
Hey you rasta man  
Hey European, Indian man  
We've got to come together as one Not forgetting the Japanese  
Hey you rasta man  
Hey European, Indian man We've got to come together as one  
Not forgetting the Japanese  
The cats and the dogs  
Have forgiven each other What is wrong with us?  
What is wrong with us?  
All these years  
Fighting each other  
But no solution  
But no solution  
Hey you rasta man  
Hey European, Indian man  
We've got to come together as one  
Not forgetting the Japanese  
Hey you rasta man  
Hey European, Indian man  
We've got to come together as one  
Not forgetting the Japanese
