

Light (feat. Little Dragon)

ODESZA

I gave my cards away, would lose the game for you
Each second slipped away, did not know what to do
Was always drawing secrets on your wall
My clothes were always falling on your floor
A reckless heart could never be much more
I always snuck in late
Running through the front gate
Light, floating on a feather
Light, landing on forever
Light
Our trip surreal, so high
We flew right through the roof
Those nights you never came home
I stayed up needing you
Was always writing poems in math books
My idols were the clever fast crooks
This reckless heart could never be much more
I always snuck in late
Rushing through the front gate
Light, floating on a feather
Light, landing on forever
Float on a feather, land on forever
