

# Love Is On Its Way

## Jonas Brothers

Young hearts

I believe that we are not far  
From becoming who we truly are

Love is on its way Dreamers

You see everything in color

While the world is getting darker

Love is on its way So hold on another day

'Cause love is on its way

You'll find it's gonna be okay

'Cause love is on its way It's alright you'll find a brighter day

'Cause love is on its way

Leaders

Show us how to love each other

It could help us to recover

Love is on its way Lonely

I believe that you will find me

And together we will truly see

Love is on its way, yeah So hold on another day

'Cause love is on its way

You'll find it's gonna be okay

'Cause love is on its way It's alright you'll find a brighter day

'Cause love is on its way Yeah!

Yeah!

Hold on another day

'Cause love is on its way

You'll find it's gonna be okay

'Cause love is on its way It's alright you'll find a brighter day

'Cause love is on its way

'Cause love is on its way

'Cause love is on its way
