

Camouflage

Brad Paisley

Kevin wasn't really all that popular in school
But I remember well the day I thought, now that guy's pretty cool
He pulled into the parking lot and everybody cheered
'Cause he'd gone and painted his entire Chevy Cavalier
Camouflage (camouflage) Camouflage
(camouflage)
Disappears when it pulls out of his garage
Camouflage (camouflage) Camouflage I asked Penny to the prom and her mom knew how to
sew
So she made a matching tux and gown from Duckline Mossy Oak
We took pictures in the backyard before we went to the dance
And the only thing that you could see is our faces and our hands
Camouflage, Camouflage
Camouflage you seen have seen the way it popped with her corsage
Camouflage, Camouflage, ain't nothing that doesn't go with Camouflage You can blend in in the
country
You can stand out in the fashion world
Being invisible to a white tail and irresistible to redneck girl Camouflage, Camouflage
Oh you're my favorite color Camouflage You can blend in in the country
You can stand out in the fashion world
Being invisible to a white tail and irresistible to redneck girl Well the stars and bars offends
some folks and I guess I see why
Nowadays theres still a way to show your southern pride
The only thing is patriotic as the old red white and blue
Is green and gray and black and brown and tan all over too
Camouflage, Camouflage
Designed by mother nature and by god Camouflage, Camouflage
Oh you're my favorite color Camouflage
