TV Family

The Rocket Summer

Just a calendar day (ba ba ba ba)
It's funny how things can stay the same, or drastically change
Some things seem so close on some days but still so far away
Don't know the right things to do (ba ba ba ba)
In fact I don't have a clue, sometimes I feel like a tool
And I want to be truthfully true to
And do all the things that you do
But when I hate everything 'bout the mean things that I say
It feels like I mess up so much and I can only say
"I hate everything about my ways"
But you tell me I'm OK
And one day, one day I know you'll say
You'll say,
"B I'm so glad you made it"
"Oh well Jesus thank you so much for saying that"
'Cause the truth you know is that I have just been hating so many things I do
But now I realize forever
You're my friend no matter what you will never leave me to fend
I don't know much but I know we will be
As happy as a 1950s TV family
Except times infinityTwo calendar days (ba ba ba ba)
And still my life is the same
And other people's have changed
I wonder what if I'm too late
All the times that I said I would just wait?
And yeah does anyone care
About us here or anywhere?
Well I just want to try and dare
To be there, to care 'cause I know, I know thats rare
'Cause when I hate everything 'bout the mean things that I say
It feels like I mess up so much and I can only say
"I hate everything about my ways"
But you tell me I'm OK
And one day, one day I know you'll say
You'll say,
"B I'm so glad you made it"
"Oh well Jesus thank you so much for saying that"
Because the truth you know is that I have just been hating so many things I do
But now I realize forever
You're my friend no matter what you will never leave me to fend
I don't know much but I know we will be
As happy as a 1950s TV family

Except times infinityA family that I will be in
(You'll say,
"B I'm so glad you made it"
"Oh well Jesus thank you so much for saying that"
Because the truth you know is that I have just been hating so many things I do
But now I realize forever
You're my friend no matter what you will never leave me to fend
I don't know much but I know we will be
As happy as a 1950s TV family
Except times infinity)A family it's just not pretend
(You'll say,
"B I'm so glad you made it"
"Oh well Jesus thank you so much for saying that"
Because the truth you know is that I have just been hating so many things I do
But now I realize forever
You're my friend no matter what you will never leave me to fend
I don't know much but I know we will be
As happy as a 1950s TV family
Except times infinity)A family that I will be in, a family
(You'll say,
"B I'm so glad you made it"
"Oh well Jesus thank you so much for saying that"
Because the truth you know is that I have just been hating so many things I do
But now I realize forever
You're my friend no matter what you will never leave me to fend
I don't know much but I know we will be
As happy as a 1950s TV family
Except times infinity)And I don't know much but I know we will be
Happy as a 1950"s TV family...
Except times infinity
Just a calendar day
